Blowing Bubble Art

- Place bubble mixture in a large bowl. Add a few drops of food coloring. Give kids a straw and have them place the straw in the bowl and blow making the bubbles rise above the lip of the bowl. Then have them take a piece of paper and lay it on top of the bowl. Take the paper off and they will have a fun bubble picture.

No Hands Allowed

- Have the kids try and pop bubbles without using their hands. They can use their heads, elbows, legs, feet, knees, etc.

Bubble Lift

- See how long the kids can keep their bubbles in the air by having them blow underneath them to keep them from popping

Bubble Tag

- Played like the regular game of tag except "it" has a bottle of bubbles and to tag someone they must blow bubbles on the other player. When a player gets tagged they take the bubbles and try and tag someone else.
